Computer Programming

Dr. Lawrence Cheung

Richard Pang

Semester 2, 2021/22

Teaching Staff

- Lecturer: Dr. Lawrence Cheung
 - Office: DE628
 - Tel.: 2766-6131
 - Email address: encccl@polyu.edu.hk
 - Consultation Hours:
 - Monday: 2:00 p.m. – 5:00 p.m.

Teaching Staff

- Lecturer: Mr. Richard Pang
 - Office: DE617
 - Tel.: 2766-4745
 - Email address: richard.pang@polyu.edu.hk

Useful Information

- Course web site: Blackboard
- Textbook
 - H. M. Deitel and P. J. Deitel, “C++ How to Program”, 10th edition, Prentice Hall, 2016.

Course Schedule

- Lecture/Laboratory
 - Wednesday, 8:30 a.m. – 11:20 a.m.
 - Venue: CF105 and CF005
 - Week 1 – 3: Special arrangement (see next slide)

Course Outline

Week	Lecture / Laboratory
1	Pointers and Pointer-Based Strings (Ch. 8) Command-Line Processing (Appendix E.4) Linked List <u>(8:30 a.m. to 11:20 a.m., TUT201)</u>
2	Linked List <u>(8:30 a.m. to 9:30 a.m., TUT201)</u> Lab 7 (Command-Line Processing and Linked List) <u>(9:30 a.m. to 11:20 a.m., CF105/CF005)</u>

Course Outline

Week	Lecture / Laboratory
3	File Processing (Chapter 17) <u>(8:30 a.m. to 10:30 a.m., TUT201)</u> Lab 8 (File Processing) <u>(10:30 a.m. to 11:20 a.m., CF105/CF005)</u>
4	GUI (Graphical User Interface) <u>(8:30 a.m. to 11:20 a.m., CF105)</u> <u>(Lecture with practical works, come with your notebook if any)</u>

Course Outline

Week	Lecture / Laboratory
5	GUI (Graphical User Interface) <u>(8:30 a.m. to 9:30 a.m., CF105)</u> <u>(Lecture with practical works, come with your notebook if any)</u> Lab 9 (GUI) <u>(9:30 a.m. to 11:30 a.m., CF105/CF005)</u>
6	Quiz 6 (Command-Line Processing and Linked List) Quiz 7 (File Processing) <u>(9:00 a.m. to 11:00 a.m., CF105/CF005)</u>

Course Outline

Week	Lecture / Laboratory
7	Quiz 8 (GUI) (<u>9:00 a.m. to 10:00 a.m., CF105/CF005</u>) Assignment 2
8 – 9	Assignment 2
10 – 13	Mini-Project (Demonstration in Week 13)

Continuous Assessment

- 3 Laboratory Exercises (3 %, 1%@)
 - Lab 7, Lab 8 and Lab 9
 - Deadlines:
 - **Lab 7: 5 p.m., 11 February 2022 (Friday)**
 - **Lab 8: 5 p.m., 11 February 2022 (Friday)**
 - **Lab 9: 5 p.m., 25 February 2022 (Friday)**
 - You are required to submit your lab. exercises to Blackboard on or before the deadlines.
 - You will score NO MARKS for late submission.

Continuous Assessment

- 1 Assignment (5%)
 - Assignment 2 should be submitted on or before **5:00 p.m., 18 March 2022 (Friday)**.
 - **Early bird bonus:** You can get the bonus if you can submit your program on or before **5:00 p.m., 11 March 2022 (Friday)**.
 - Early bird bonus: ***total marks x 1.05***
 - The maximum score is still 5%.

Continuous Assessment

- Mini-Project (30%)
 - Two students form a team/group.
 - Do the team/group registration through Blackboard on or before Week 3.
 - Design and implement a small game.
 - Different features will be assigned to different teams/groups.
 - You need to demonstrate your program and answer questions during the demonstration.

Continuous Assessment

- The mini-project guideline will be released before Chinese New Year.
- Mini-project should be submitted on or before **5:00 p.m., 12 April 2022 (Tuesday)**.
- Demonstrate your project on **13 April 2022 (Wednesday)**.
 - 8:30 a.m. to 11:30 a.m. in CF105
 - The demonstration schedule will be posted to Blackboard on or before 11 April 2022 (Monday).
 - Demonstrate all features of your project, Q & A

Continuous Assessment

- **Early bird bonus:** You can get the bonus if
 - You can submit your project on or before **5:00 p.m., 5 April 2022 (Tuesday)**.
 - You can demonstrate your project on **6 April 2022 (Wednesday)**.
 - 8:30 a.m. to **11:00 a.m.** in CF105
- Early bird bonus: ***total marks x 1.05***
- The maximum score is still 30%.

Continuous Assessment

- 3 Quizzes (3%, 1%@)
- Final Test (21%)
 - Close-book written test (3%, 10 minutes, short questions)
 - Open-book practical test (18%, 170 minutes, 2 programming questions)
 - **Time: 9 a.m. to 12 noon, 19 April 2022 (Tuesday)**
 - **Venue: CF105 and CF005**

Continuous Assessment

- Marking Criteria:

1. You will score NO marks in a programming question if your program cannot be compiled successfully.
2. You will score NO marks in a programming question if your program cannot show any outputs properly.
3. You will score some marks in a programming question if your program can show some reasonable outputs.
4. You will score FULL marks in a programming question if your program can give the expected outputs in our testing cases.
5. You are welcome to discuss your case with me if you confuse about my marking.

Advices

- The loadings of the assignment and the mini-project are very high. You may spend quite a lot of time to finish them.
- You should start doing Assignment 2 and mini-project as early as possible.
- No cheating is allowed. You may score Grade F in the whole subject when I know you cheat.

Summary of Important Dates

- Lab 7: 5 p.m., 11 February 2022 (Friday)
- Lab 8: 5 p.m., 11 February 2022 (Friday)
- Lab 9: 5 p.m., 25 February 2022 (Friday)
- Assignment 2: 5 p.m., 18 March 2022 (Friday)
 - Early bird bonus: 5 p.m., 11 March 2022 (Friday)
- Mini-Project: 5 p.m., 12 April 2022 (Tuesday)
 - Early bird bonus: 5 p.m., 5 April 2022 (Tuesday)
- Final Test 2: 9 a.m. to 12 noon, 19 April 2022 (Tuesday), CF105 and CF005
